- Connecting RAVAS scale with WMS or ERP
- For Windows Mobile/CE terminals (Version PDA)
- For Windows XP/ Vista 7 (Version PC)
- Easy installation from CD-rom

Easy connectivity

Free software license

# RAVAS

## FUNCTIONS

- Runs on Windows Mobile/CE 5.0 or higher (PDA), and Windows XP/Vista or Windows 7 (PC)
- Defining function key on PDA or truck terminal
- Importing weight data from RAVAS mobile scale into application software on PDA or truck terminal

## HOW UNIMOBILE CONNECT WORKS

UniMobile Connect is a bridge software that runs in the background of the main application on your handheld or truck mounted terminal. UniMobile Connect lets you define a function key on your terminal which automatically imports the weight from the RAVAS scale into a relevant field of the terminal application.

## EASY INSTALLATION

Installing UniMobile Connect on the terminal is easy, thanks to the installation software on the CD-ROM. You upload the installation program on a laptop or PC, connect the Windows terminal with the PC, start the UniMobile Connect installation software and follow the instructions on the screen. The installation software leads you through the procedure step by step.

## SYSTEM PACKAGE (ON CD-ROM)

- UniMobile Connect software for Windows Mobile/CE 5.0 and higher
- Installation software
- Free software license
- FAQ
